IN-HOUSE DECORATION

Embroidery

high density decorative stitching on fabric that evolved from handwork to today's high-speed, computerised multi-head machines.

- Only use the best 1st class threads
- Quality digitising of your logo

Supacolour.

an innovative method of branding a wide range of products with crisp, vibrant, full-colour graphics.

- Allows free floating text without any weeding required
- Robust! Can be applied across seams and on coarse fabrics
- 100+ washes, will outlive product & won't peel, crack or fade

SupaDTE

allowing for vibrant colour and fine detail, this method of decoration is a popular choice.

- Ability to produce high-quality results on diverse materials
- Supports full-colour prints, complex gradients and photographic images
- A favoured choice for small production runs

Supasub

the solution for replicating full colour logos on hard to decorate products such as caps, beanies, scarves, blankets, and jackets.

- Lightweight feel compared to solid embroidery
- Choose what colour thread for matching or contrast effect
- High resolution

Supaetch

a laser-etched suede patch sewn directly onto an array of products such as bags, blankets, caps, beanies, and scarves.

- A subtle branding option with high perceived value
- 11 different colour suedes available

Sublimation

a printing transfer process using heat sensitive sublimation inks to permanently dye synthetic fabrics producing a bright, full colour, and crisp image.

- Sublimation dyes the fabric so the decoration becomes part of the product rather than an application
- Vibrant colours with stunning detail
- Low MOQ of 20 units

Supaflex

printing highly detailed logos onto vinyl with either a matte or gloss finish attached with embroidery, for a quality result.

- 8 background colours
- Your choice of matte or gloss finish
- Any shape, any design or detail
